

OUR HISTORY:

Initially founded as a millwright company servicing the agriculture industry, we have grown into a full-service industrial contractor, with over 100 years of combined experience.

We offer 40 ton Crane Services, complete with certified operators.

We employ a full service fabrication shop to build your equipment from beginning to end. Our fabrication services include:

- 5' x 10' CNC Plasma Table
- 5' x 10' Omax WaterJet
- Custom welding and repair
- Troubleshooting / diagnostic services

Our services are performed by highly skilled and trained craftsmen including certified crane operators/riggers, welders, and alignment specialists. Craftsmen are supported by fully-equip service trailers and trucks. All our millwrights are trained in their respected skills, and are safety certified in OSHA, MSHA, First Aid, Confined Space Entry, CPR and first aid.

STATEMENT

It is our mission to provide the highest quality and most efficient solutions for our clients, the safest way possible. Our success is fully dependent upon the success of our customers. We are here and dedicated to helping you build a better future one project, weld, or bushel at a time.

INDUSTRIAL MAINTENANCE

When your facility is ready for machinery replacements and upgrades, or if the entire plant is moving to a new location, call on us to handle your equipment with care and to get the job done. We have moved a wide array of equipment, large and small, and have the experience and expertise required to get your plant back to business with as little downtime as possible. As a full-service millwright and industrial maintenance company, we also offer a full line of pipefitting services. Our service crews are comprised of some of the best project managers, foreman, welders and pipefitters in the industry. We work quickly, safely, and according to plan. You can count on us for quality work that shows a sincere attention to detail. To meet the demands of your project, we have extensive experience in using a variety of materials including carbon and stainless steel, special alloys and nonferrous materials. We provide a comprehensive environmental and health & safety program to ensure the safety of our team members, customers, and general public while we are performing our work.

- Complete facilities maintenance
- Conveyors
- Extruders
- Pipe Fitting
- Welding

Construct with confidence when you're wearing Wolverine work boots. Rugged leather uppers and mesh linings make our work boots tough but lightweight. Fight fatigue while staying comfortable in dual-density foot beds made to support each step. Our lace up and slip on boots bring safety and strength to the active workplace, with breathable inserts and cushioning midsoles to keep you cool and productive. Whatever you need to do can be done in Wolverine work wear.

AGRICULTURAL & MILLWRIGHT SERVICES

We understand how important it is to keep your facility operational and efficient. When you experience equipment failure, you can count on us to assist you in getting your facility back on track. Our millwright crews can help with any equipment maintenance or repairs. We have the expertise to maintain, repair, replace or custom fabricate any grain storage or material handling maintenance situation. We provide not only routine and preventative services but are also available for emergency repairs. Whether you are a farm, feed mill, brewery, winery or food processor, we are dedicated to your success. Our goal is to provide our customers with a properly designed and installed final product that will greatly increase their profitability and ease their work loads. We can design your work site with state-of-the-art CAD software, and our decades of experience allow us to handle any situation or layout.
